Hi Avinash,

Thanks for the reply! That's great that there are some spots left in your patho section that I wanted to get into. That one fits best with my schedule. I don't think I can change any of my courses right now, but I just have to wait until August 26th as that is the add/drop course date on banner. I was going to call the registrar today, but they are closed and I just wondered if they might be able to place me in your patho class now. I think I may have to wait until the 26th to switch into your patho course.

Thanks again for all of your help! I really appreciate it,

Brittany Clydesdale

Hi Brittany,

Good afternoon! Hope all is well with you and that you are having a great summer!

Thank you so very much for all your kind words about my teaching. I really do not deserve it. Last term was just horrible for me due to all my health issues and it severely impacted my teaching. Thankfully, I am much better now and the Fall term is going to be great!

As for Patho, when I log into Banner, it shows me that my section is not yet full. There are four spots remaining. Perhaps you can check again to see if you can switch into my section. I would love to have a you as a bright, diligent student in my section. Please check and let me know if you are able to switch. If that does not work, we can discuss further options that you might have.

Thanks also for putting in some kind words about me to your sister and the other students. I hope to live up to the high expectations. Chemistry is tough but I am sure your sister will do well! Do provide her with all your wisdom!!

Thanks again for all your kind words. BTW, teaching is such a breeze when I have good students like yourself in the classroom. Hope to see you back in the classroom in September!

Please do keep me informed and let me know if you need any further info.

Take care,  
Avinash

**Subject:** BScN Year Two Patho

Hi Avinash,

Hope your summer is going great. I was in your anatomy and physiology classes last year, and was looking forward to getting you as a prof for patho as well. Unfortunately, the timetables that you were in went very fast so I had to choose a different schedule. I know the add/drop date is coming up, but do you know if you have any available spots in your NURS 2533 - 01 - 12208 class on Mondays from 10-12:50 pm. As that is the class that I would love to switch into for patho.

I really enjoyed having you as a teacher in anatomy, and has recommended you to everyone that is taking first year bscn. My sister also has you for chemistry in pre health, which she is very excited about (I made sure she had you as a teacher!!). Hoping that I will be able to switch into your patho class for year two!

Thanks so much,

Brittany Clydesdale

Hi Brittany,

Good afternoon. Thank you so much for the kind words but I really don't deserve it. You did all the hard work and hence did well in the course. My role was very small. But thanks nevertheless.

As for the patho text, it will not change so yes I would definitely encourage you to get the text and get a head-start on the readings. I could send you the tentative syllabus if you like. I hope to see a good student like you in my patho section in the fall. It will be much better than this term which did not go well due to all my health issues.

Hope you are having a great Easter weekend. Enjoy your well deserved summer break as well.

Thanks,  
Avinash

Hi Avinash,

I just wanted to say thank you for everything in my first year of nursing school. You made A&P 1 and 2 such an enjoyable course!

I also had a question regarding the Patho textbook. I was wondering if you knew if the editions were changing in September. I was thinking of purchasing the Patho textbook now so I can get ahead of readings in the summer as I know Patho is a difficult course. I unfortunately did not enroll in the summer Patho course so I would like to read a few chapters throughout the summer to be prepared and get ahead.

Thanks so much Avinash and have a great summer!
