Hi Professor Thadani,
I just wanted to say thank you for an amazing semester, you made my first year in college incredible. You are an amazing professor and I have learnt a lot in your classes, I really appreciate all the help over the last 2 semesters, you always provided additional resources and responded to all questions in such a timely manner and your classes were the hardest but were my favourite. You are a great professor and are always there for your students.

Thank you so much again,

Gurleen Grewal
