Dear Professor Avinash,

I just wanted to take a moment to sincerely thank you for a great semester. I truly learned so much from your course and really appreciated the way you taught and supported us throughout.

I know the exams haven't been graded yet, but I just wanted to mention that it's probably not my best performance. It doesn't reflect the effort I've put into the course or how I've done in my other classes. I had a difficult week leading up to the exam, as I had to take my dad to the hospital and was dealing with a family emergency.

Overall, I'm very grateful for everything I've learned in your class. Thank you again for your time, effort, and dedication this semester. I hope to have you again in future courses throughout my nursing degree!

Have an amazing summer!

Kind regards,

Isabella, Garcia Sierra
