Making learning this difficult content easy, lots of resources
Avinash Thadani has supported my learning by showing he truly cares about his students and that he wants all of us to succeed. He shows that he knows the content very well and that helps when learning the content. Even when he had to shift to an online class he still tries to ensure we are understanding and always asks for ways he can improve so that we can learn effectively.
Best teacher I ever had

What recommendation(s) would you make to improve this course?

Comments
Have Avinash teach everyone
The online quizzes should be worth less because there is multiple answers per question so it's hard to get good marks

Given the importance of pathophysiology, it would be nice to have additional class time/tutorial sessions within the term.
