Avinash is one of the greatest professors I have been taught by. The videos he uploaded to blackboard that aligned with the in class lectures with more detail were extremely beneficial to my learning and helping the information stick. He is very kind and approachable. He always answers questions, even during breaks, and elaborates and explains how and why in terms and ways that are easy to understand.
After the first quiz I did not do very well and Avinash booked an online meeting with me and asked if I needed any extra help.
He had great resources for every chapter we looked at throughout the course, he also provided us with mini (non-graded) quizzes to test our learning after each chapter.
Providing extensive resources to support my learning and having a passion for what he teaches.
providing assistance to clarify confusing topics, answering emails in a timely manner, and creating practice quizzes that effectively prepare you for graded quizzes and exams
Avinash is an amazing professor, he reached out to me when I did poor on a quiz in the first few weeks and always allows questions during class, breaks, emails, and office hours. his assignments and tests make sense and relate to the material and he provides clear instructions and rubrics how they should be completed as well as tips on how to write and study. I found the class very enjoyable and he taught the content well.
Dr thadani took my learning to another level of interest. He's compassionate and ready to answer questions
Further explaining course concepts when a student is confused and checking in on students progress and learning in the course
giving us practice quizzes. HUGE Help. learning outcomes also directly correlate w/ assessments.
Making myself and other students feel supported, like you want us to become nurses.
Providing many resources for weekly learning like practice quizzes for each unit, additional slideshows, and work sheets. Avinash always provided lot of feedback on our assignments and was very engaging during class time. The way he taught was engaging and didn't just read off of the slideshow. He provided videos, nursing examples, and drew diagrams to assist with our learning.
Providing enough materials and handout to study and pass the course
Avinash's powerpoint slides, prerecorded videos, and handouts supported my learning. I enjoyed the class. Thankyou!
Making the classes interesting, keeping everyone engaged in the learning as well as clearly explaining everything so that it is easy to understand
Providing other resources for better learning such as practice quizzes to check my knowledge and alternate slideshows with further explanations for what we are learning

Comments
No room for improvement.
I wish he had provided more examples of what he was expecting on the case studies and more of an outline of what to expect on the midterm.
NA
Maybe add more content to his PowerPoint.
Nothing. Avinash is a great professor and is great at explaining course concepts
Allowing more quizzes to get high grades in the course

What recommendation(s) would you make to improve this course?

Comments
None. This course is great exactly as it is.
Nothing at all, Avinash is a very good professor.
NA
Nothing
More Practicals or Laboratory in Anatomy and Physiology
