BEGINNING OF THE COURSE

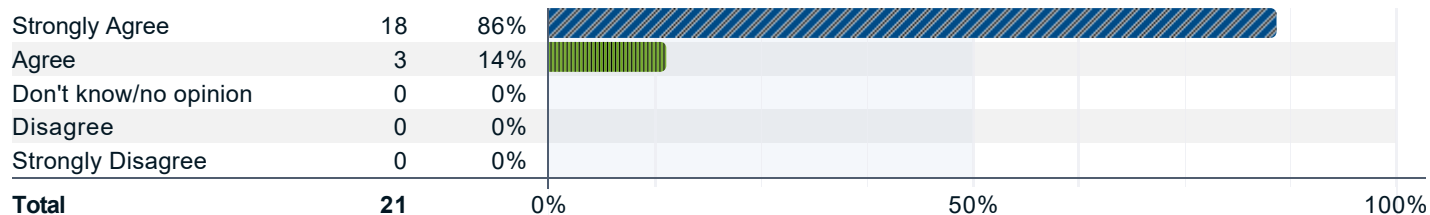

DURING THE COURSE

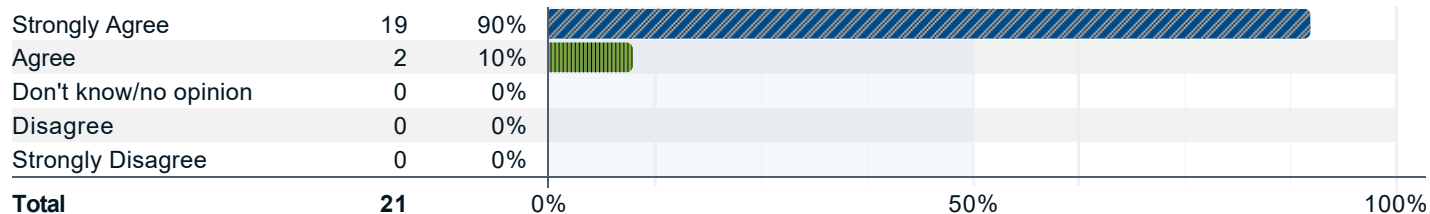

6. I am encouraged to engage and ask questions

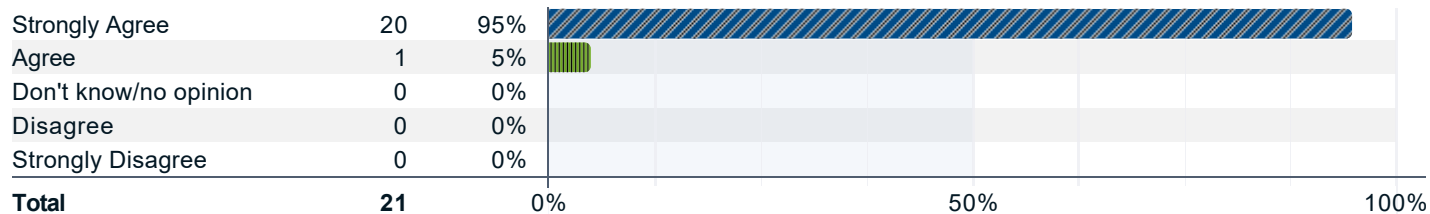

7. The course content is structured/presented in a logical order

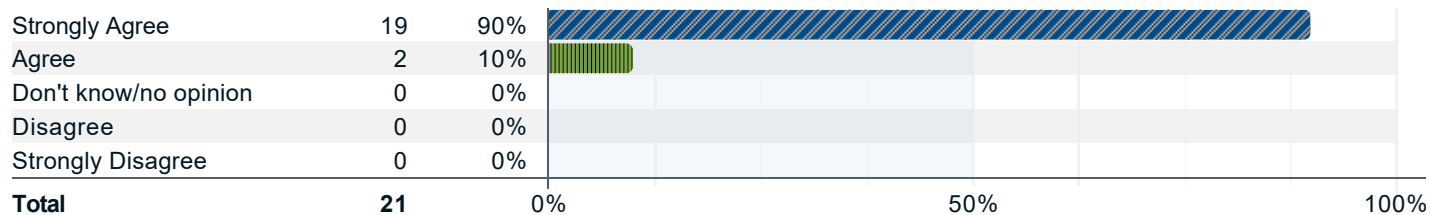

1. The professor provides their expectations for student success in the course

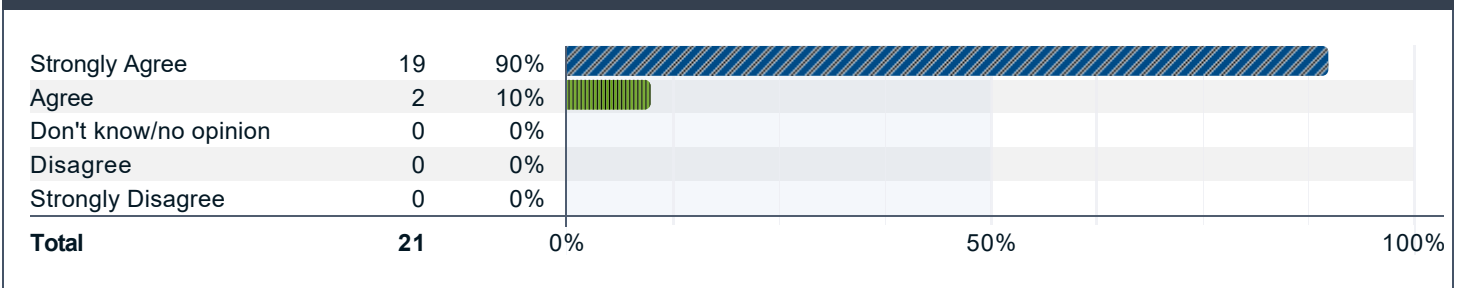

2. The professor is prepared for each class

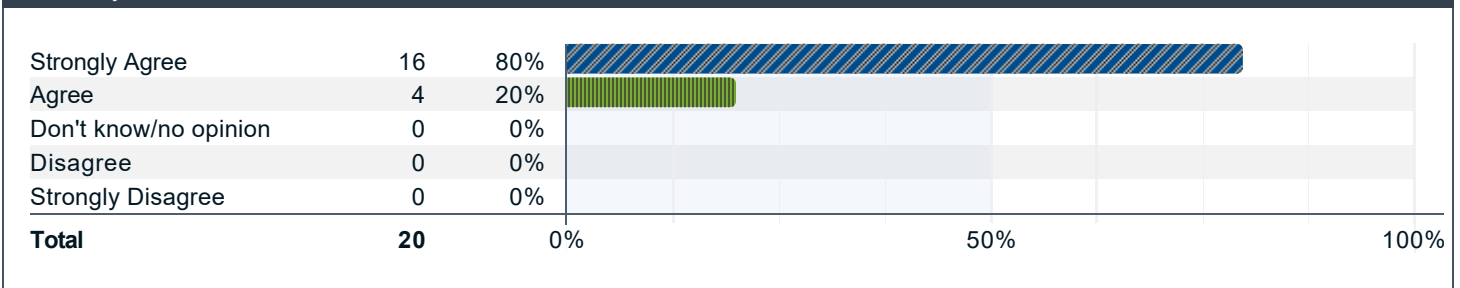

3. The professor explains content in a way I can understand

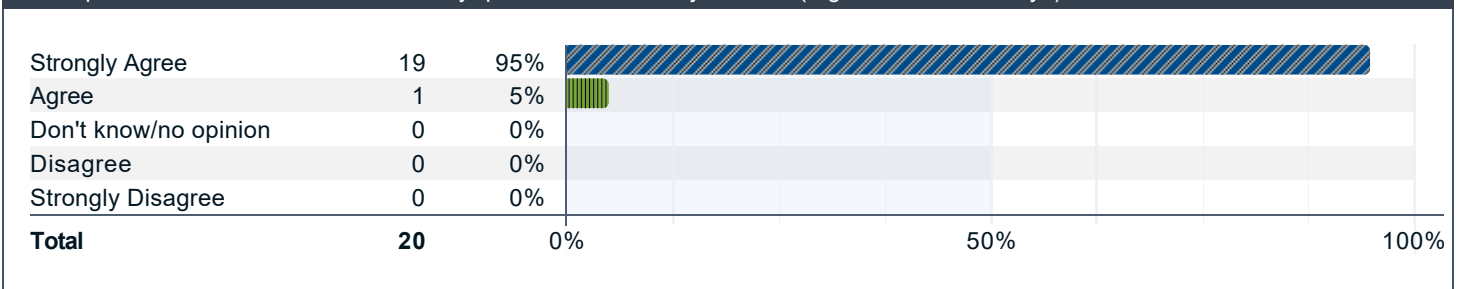

4. The materials used by the professor in the course (e.g. presentations, handouts, videos, websites, etc.) help me to understand the course content

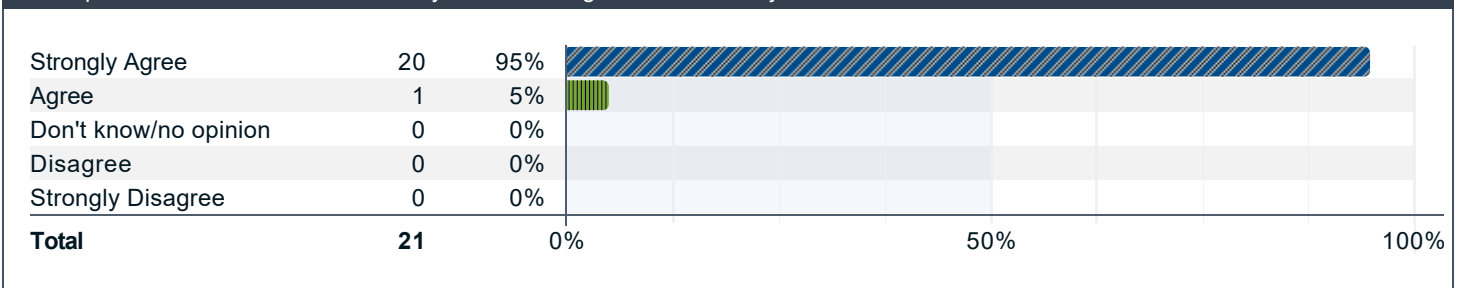

5. The professor informs me of, or directs me to, the appropriate resources/services (e.g. advising, library, peer services, etc.) as necessary

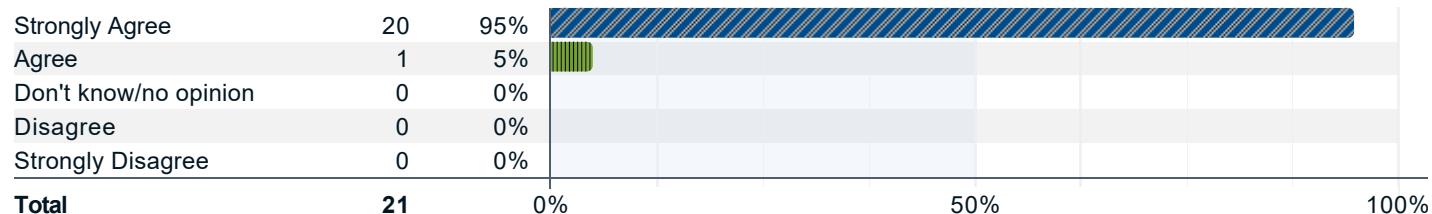

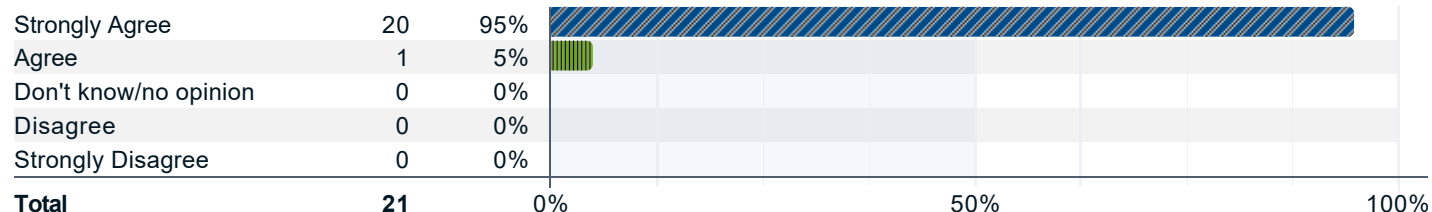

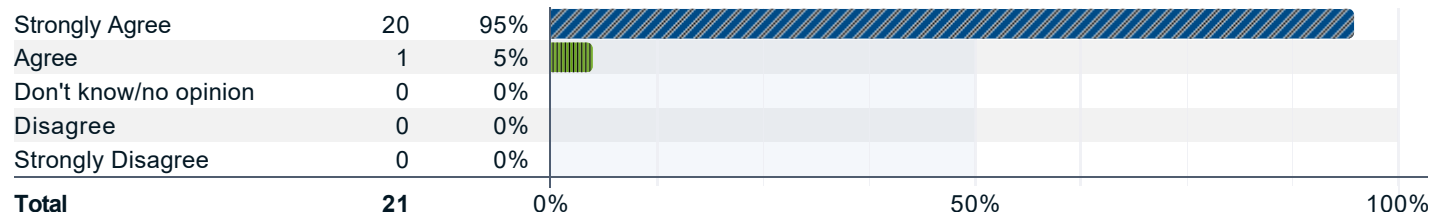

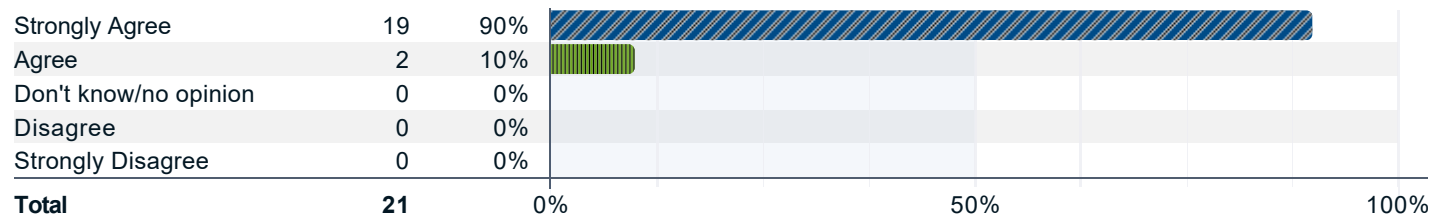

6. The professor is available to answer my questions in a timely manner (e.g. 1-2 business days)

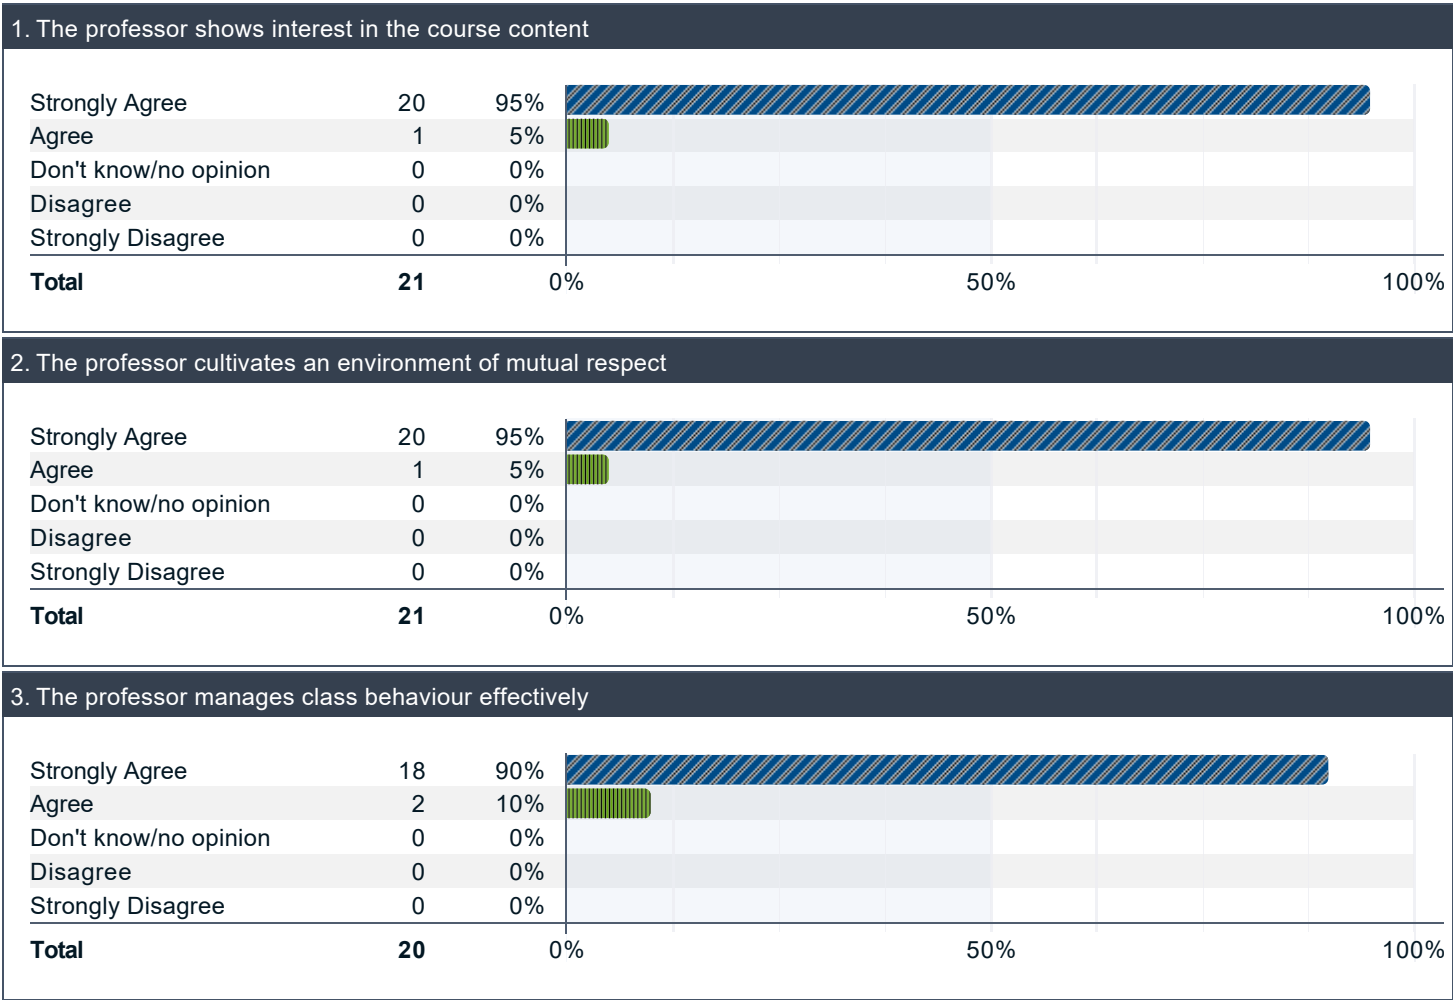

7. The professor demonstrates that they are knowledgeable of the subject matter

EVALUATION**1. The evaluation methods (e.g. tests, assignments, reports, etc.) described in the course syllabus/outline are followed****2. The evaluation methods (e.g. tests, assignments, reports, etc.) help me to understand the course content****3. I am provided with feedback on my work that benefits my learning****The professor returns evaluations (e.g. tests, assignments, reports, etc.) within two weeks, or the time specified by the professor**

CLASSROOM ATMOSPHERE

The professor has supported my learning by...

Comments
He has supported my learning by thoroughly explaining content and being precise while proving examples and being very engaging.
Provides various materials/ to depict course content
Teaching at a good pace and keeping me engaged in class
PowerPoint presentations are posted before time and have straightforward activities and projects to help me understand. PowerPoint presentations are not to full of information
having detailed lessons and always doing case studies to help us practice for the case studies to be completed on the midterm, exam, and case study assignments; helping to make connections to help better understand trickier concepts
By specifying where our focus should lie and where it shouldn't
Avinash has been such a wonderful teacher throughout this semester. He is very knowledgeable, and you can tell that he has an interest in the content that he is teaching. I feel like the feedback he gives is very reasonable and helps support my learning. He uses a variety of teaching methods to ensure that we understand the content. I hope that I have Avinash as a professor in other classes throughout my time a Georgian.
Avinash Thadani where do I start. Avinash has been the most amazing professor throughout this semester (I made sure to pick Avinash as my professor for A&P and Patho 2 for next semester because I appreciate him so much). He went out of his way to support my learning through answering my long emails, meeting with me privately, and supporting me along this learning journey. I have never felt so supported by a professor as I do by Avinash. He made sure to check in with us every class and ensured we knew to reach out if we had a questions. He also provided in-depth answers to any questions I had and provided on going support. Before my patho midterm I was struggling with a concept and Avinash went of his way to meet with me and walk me through the concept until I understood. He never made me feel silly or stupid for not understanding. He supported me as a student and an individual. Thank you Avinash for everything and supporting my success as a student!!
Being present and engaging in class sessions and explains course material in a way all students understanding, light hearted individual and is flexible with assignments on more complex topics. Avinash provides excellent feedback on practice quizzes and online testing materials. Provides help to those struggling and is generous to give helpful study tips for midterm and exam. Hope to have him as a professor in year 2
excellent teacher, providing quick answers to questions very well spoke and reasonable to students.
Avinash is one of the best teachers I have had, he is beyond knowledgable, kind, resourceful, helpful and really allows students to engage in the material with real life examples.
Providing enthusiastic lectures with a thorough discussion of the topics we are learning. Providing helpful extra learning resources for student review on the Blackboard site.
Ensuring that all students questions or concerns are answered and providing lots of practice questions and resources to help prepare for test/exams and helps with understanding content and studying
he is the best professor and clears all my doubts in class as well as always help whenever i need he have the best tips and tricks to help students understand difficult things
he is very open to questions and loves to allow us to elaborate to facilitate independent learning. he is very funny and welcoming in class, I love his hockey jokes every morning! his teaching style is very focused on pictures and videos which can be helpful for many and was for me at times. he returns projects in a timely manner with amazing feedback that genuinely helps me learn. i find Avinash to be a great overall professor.

The professor could provide further support for student learning by...

Comments
Provides a daily anecdote/ story to set the tone of the class and ensure the class is ready to engage.
Maybe add another case study, they are very helpful
For the feedback for the project make sure its not just the answer that you want make sure to includes what to improve
Nothing hes amazing!
NOTHING. Avinash did a phenomenal job supporting me as a student and my learning success. I appreciate you so much!
Shortening the lecture topics to fit all content from one week into one class, (i.e. spending less time talking about topic A and more time on topic B)
Avinash could further support my learning by having each learning outcome more detailed within the syllabus, and have the learning outcomes on blackboard under each week more coorelated with the syllabus.
he is the best and always reply on emails on time and alwyss ready to help in class
i find his teaching style to be very visual in pictures and videos, with fewer words. i need words to help me understand a picture and i wish there was more of that. also, some typos or mistakes on the slideshows often cause them to be out of order, however, since the slideshows are so detailed it isn't a huge issue. sometimes we fall far behind the anatomy class but i am just thankful he goes into so much detail and would rather us fall. behind then rush through.

What recommendation(s) would you make to improve this course?

Comments
None :)
For the feedback for the project make sure its not just the answer that you want make sure to includes what to improve
focusing on the learning outcomes in the in class material
Great professor!!
No recommendations. He was amazing and I cannot wait to take more courses with him next semester. Through Avinash's teaching style I have confidence I will succeed in any course I take with him! Thank you for an amazing semester Avinash I cannot wait to further my learning and education with you going forward. Thank you for supporting my learning unconditional and providing positive and encouraging feedback!
No recommendations to change course, content was good, testing and assignment material was very thorough
The reccomendations I would have to improve this course is simply less of a workload and not as fast paced, I feel like studying the material before the class, after the class, weel prior and before the exam is never ending due to the immense ammounts of information.
I found that the textbook wasn't overly helpful
further review of PowerPoints to match the syllabus. Oftentimes there are diseases in the slideshows not in the syllabus and because blackboard, the syllabus, and the slideshow all list different learning outcomes, this can be confusing. Further revision of the learning outcomes to be congruent on all platforms is suggested.
