BEGINNING OF THE COURSE

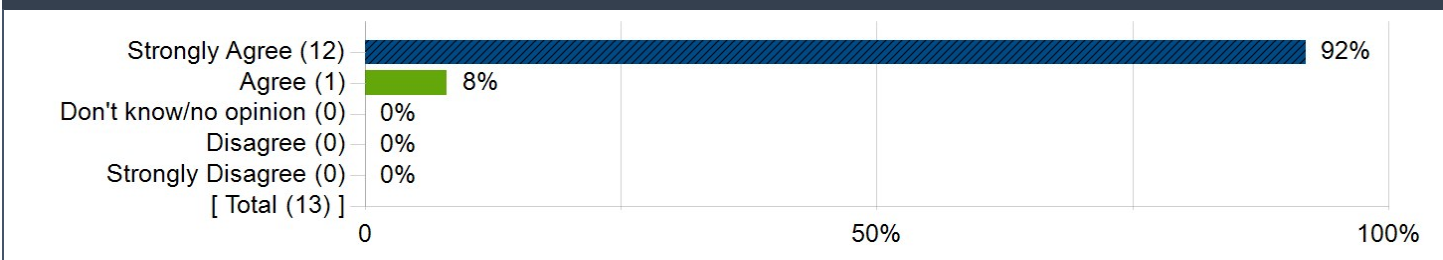

DURING THE COURSE

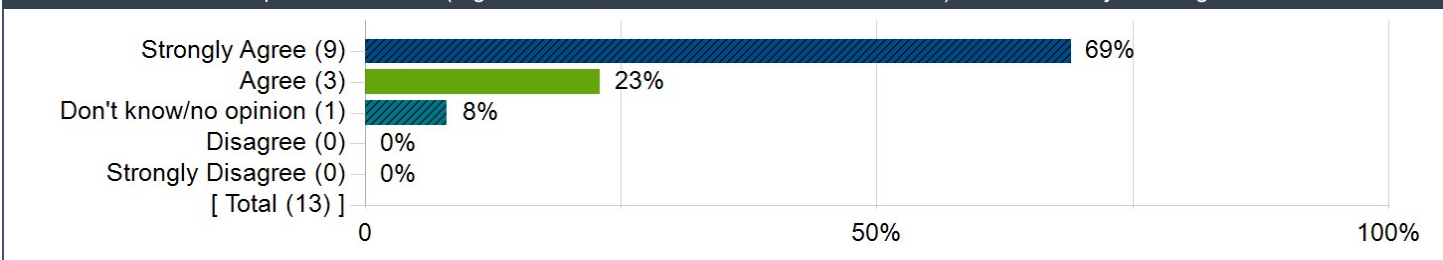

1. The delivery method described in the course syllabus/outline is followed (e.g. the amount of time the professor spends teaching per week, whether class is delivered in-person, online, hybrid, or GC Flex, etc.)

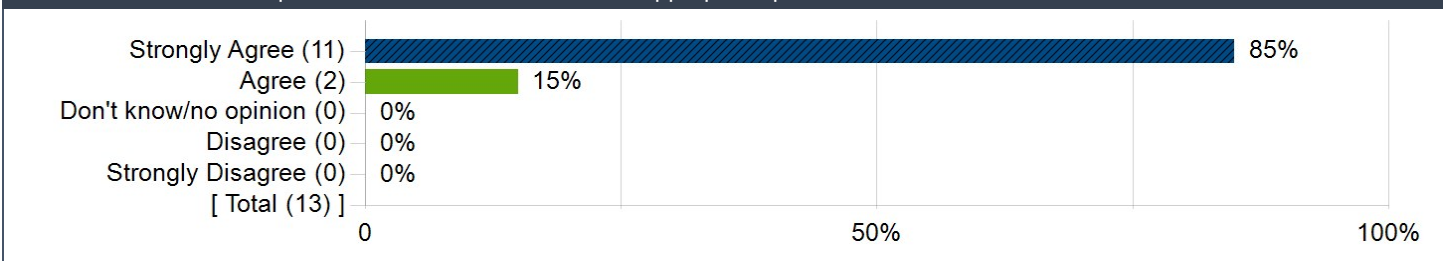

2. The variety of learning activities (e.g. presentations, projects, discussions, group work, etc.) help me to learn and engage with the course content

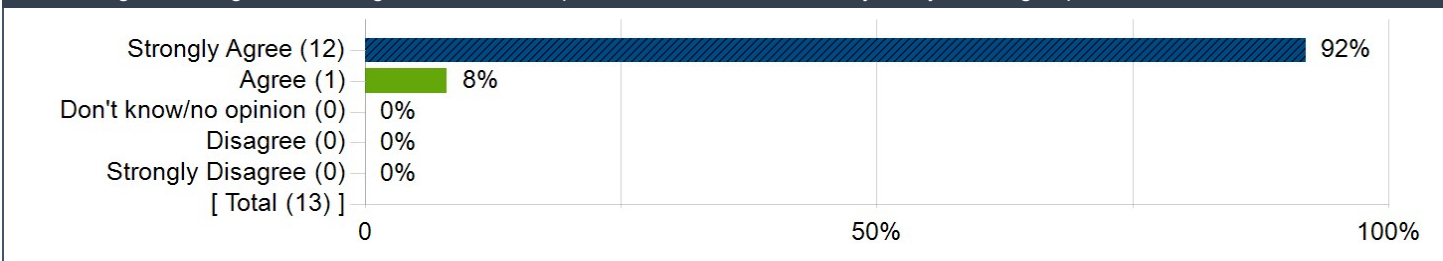

3. I find the course's required resources (e.g. textbook, manual, articles, handouts, etc.) valuable to my learning

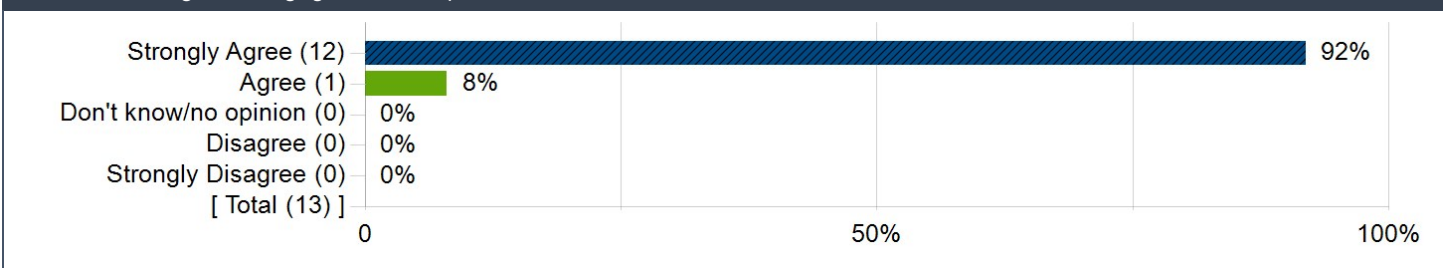

4. The course content is presented or demonstrated at an appropriate pace

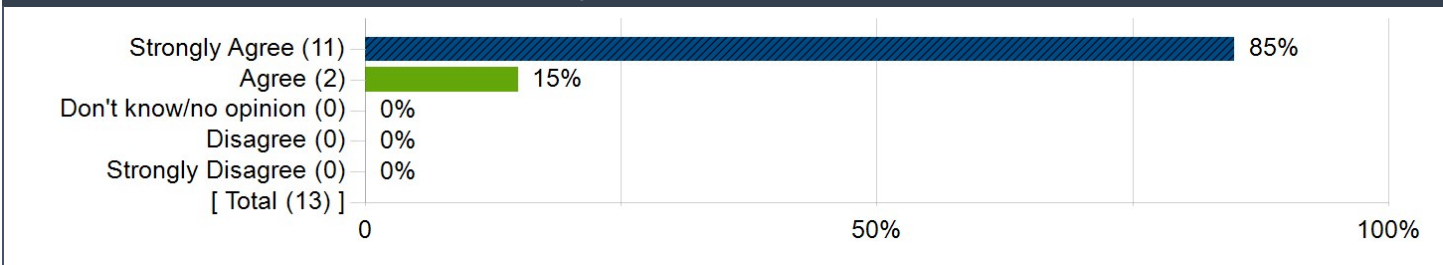

5. Learning technologies, including the Blackboard platform, are used effectively in my learning experience

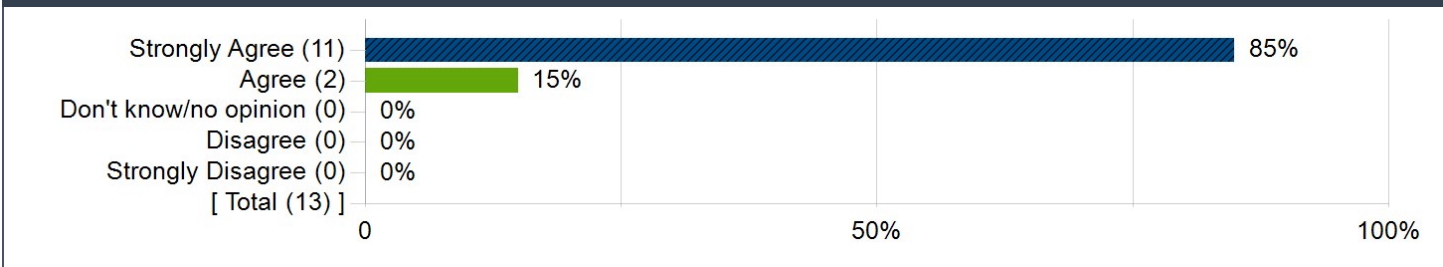

6. I am encouraged to engage and ask questions

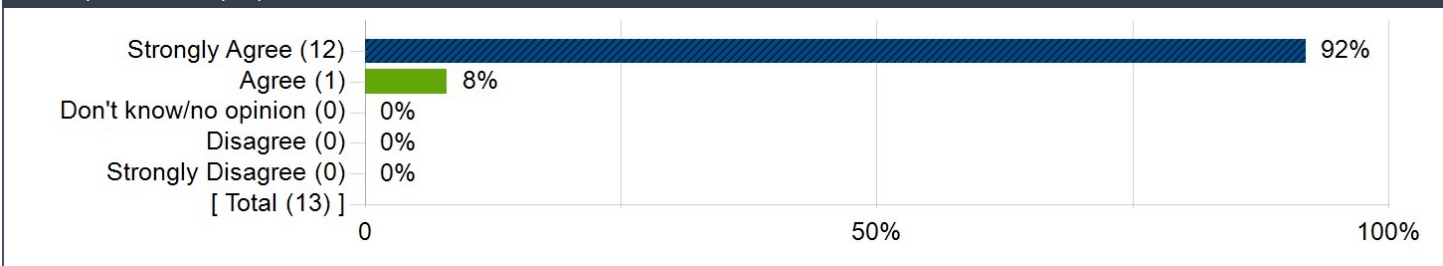

7. The course content is structured/presented in a logical order

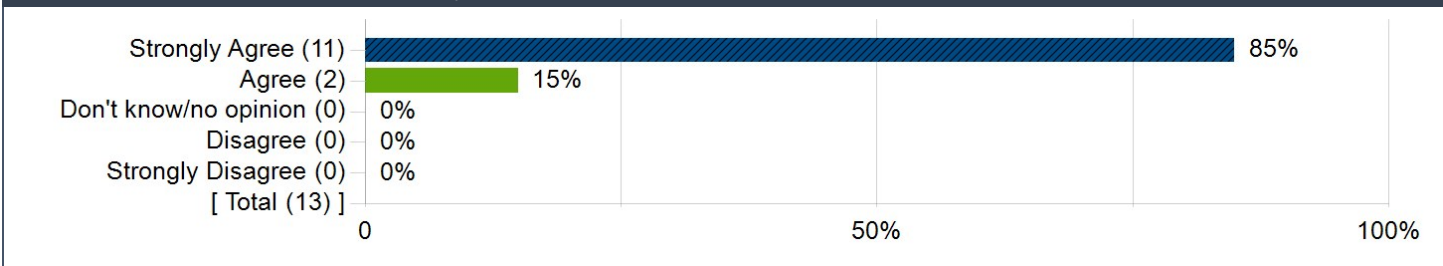

1. The professor provides their expectations for student success in the course

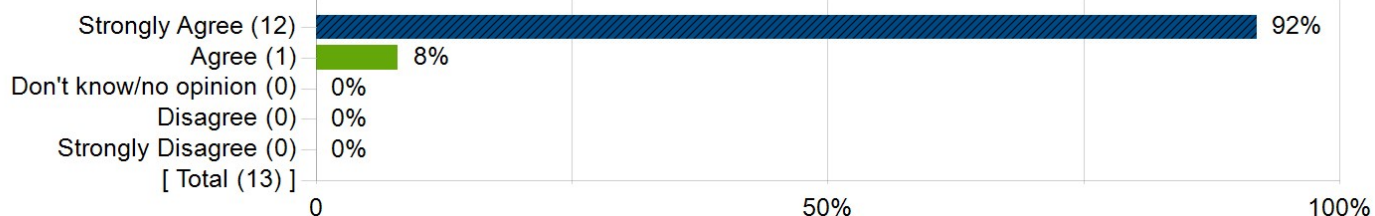

2. The professor is prepared for each class

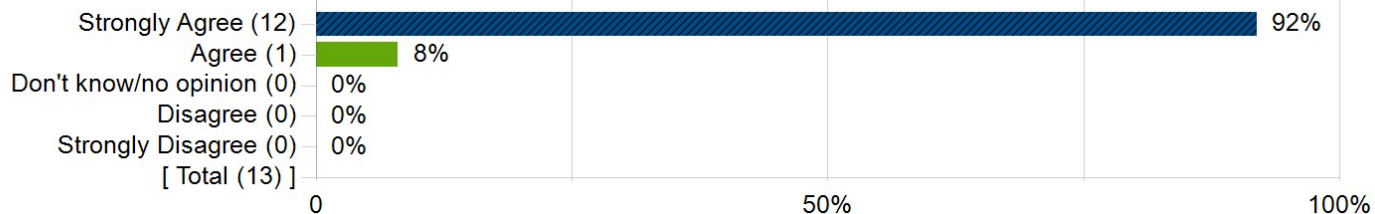

3. The professor explains content in a way I can understand

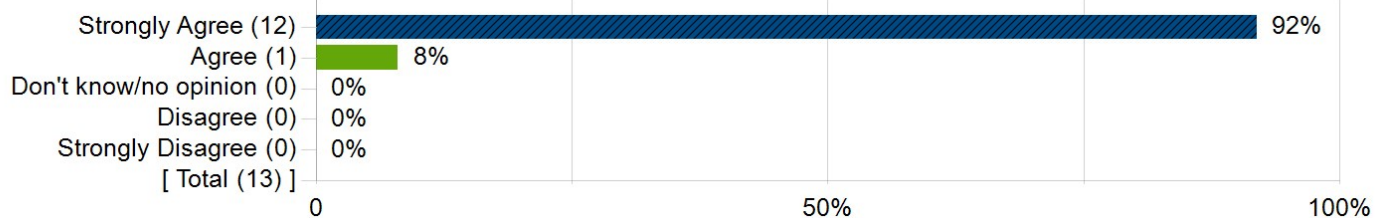

4. The materials used by the professor in the course (e.g. presentations, handouts, videos, websites, etc.) help me to understand the course content

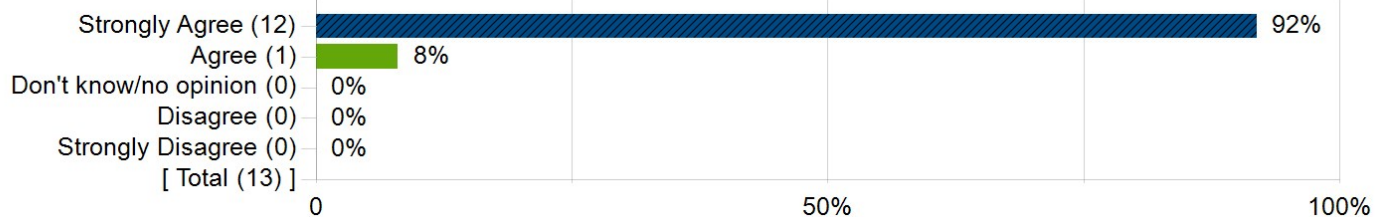

5. The professor informs me of, or directs me to, the appropriate resources/services (e.g. advising, library, peer services, etc.) as necessary

6. The professor is available to answer my questions in a timely manner (e.g. 1-2 business days)

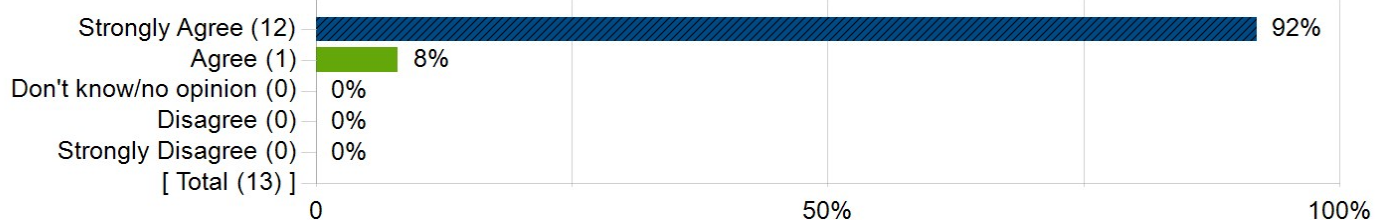

7. The professor demonstrates that they are knowledgeable of the subject matter

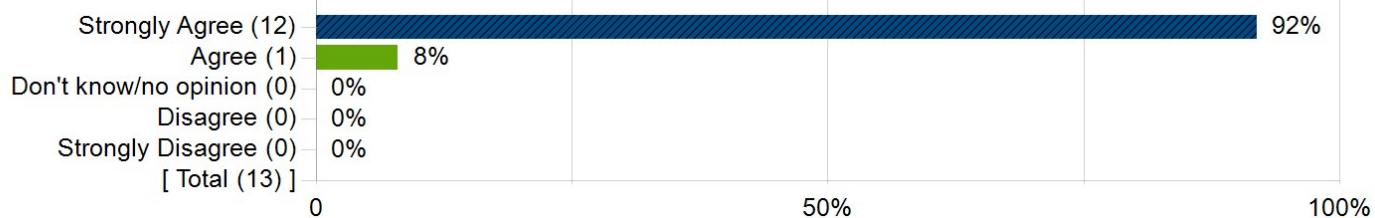

EVALUATION

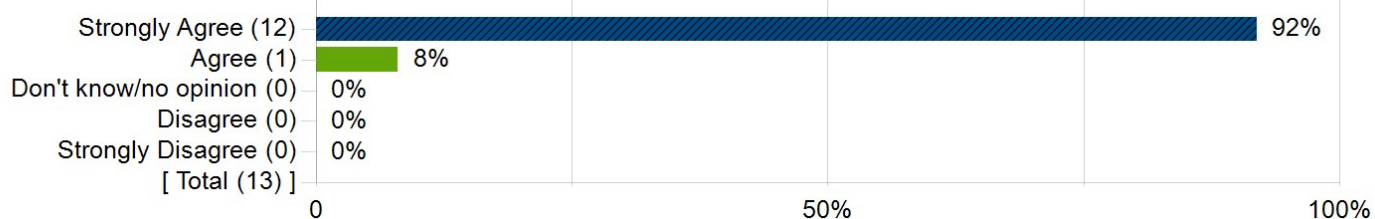

1. The evaluation methods (e.g. tests, assignments, reports, etc.) described in the course syllabus/outline are followed

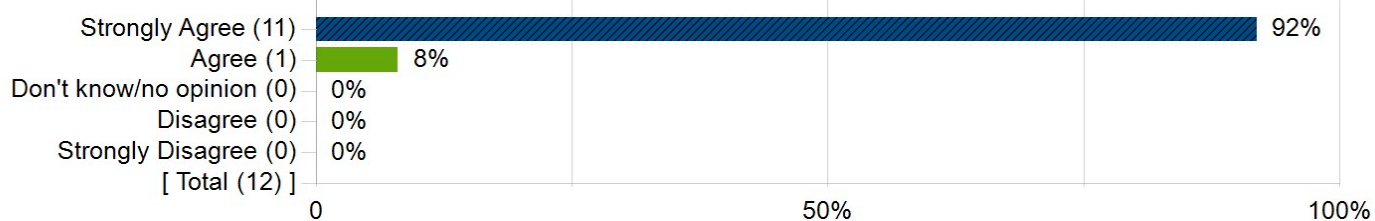

2. The evaluation methods (e.g. tests, assignments, reports, etc.) help me to understand the course content

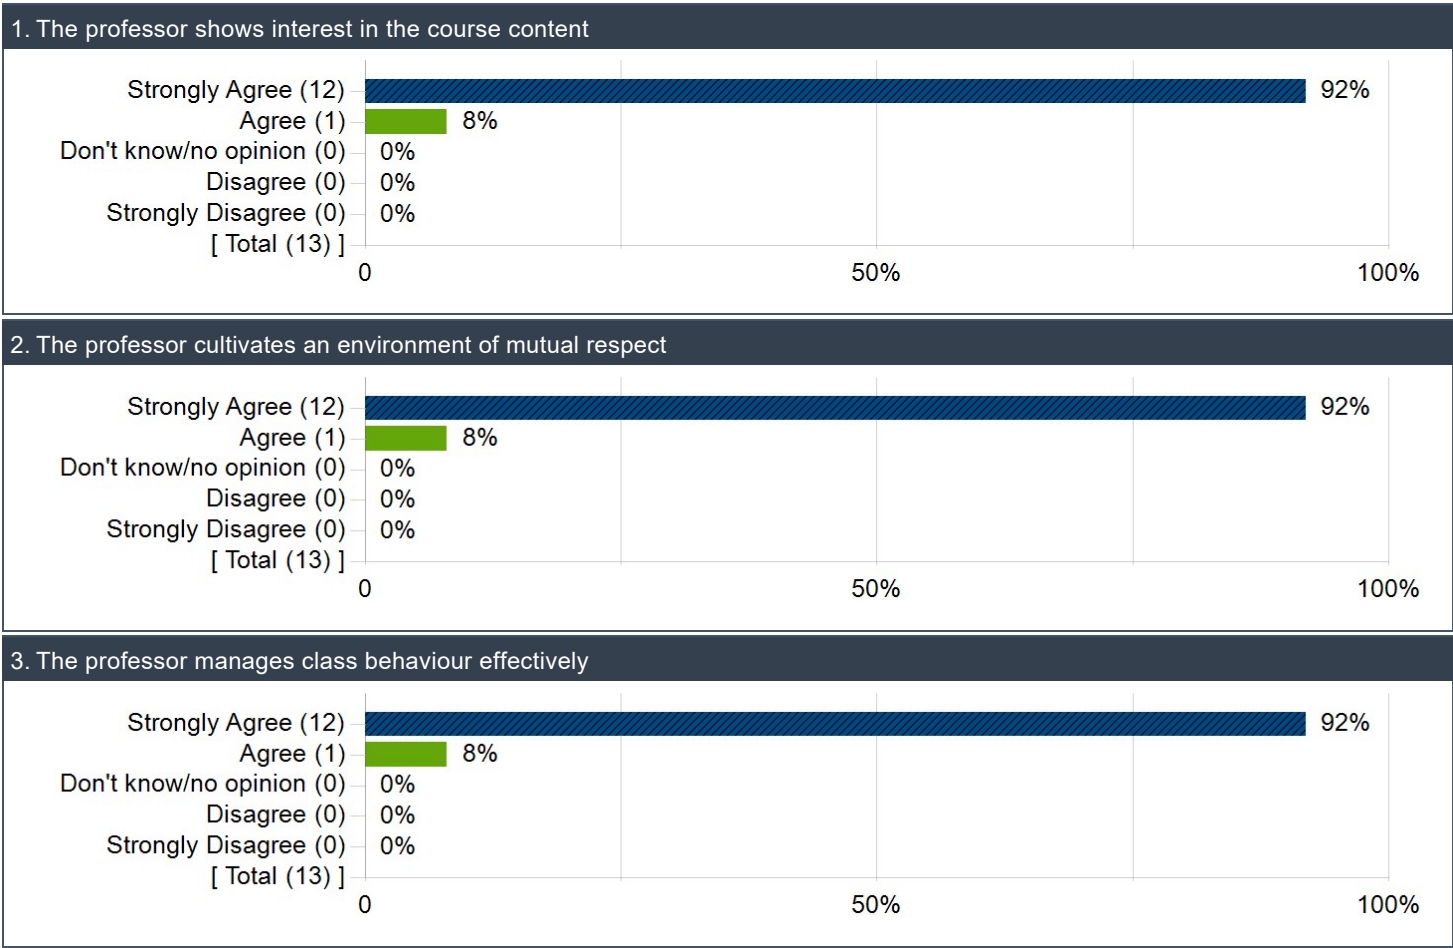

3. I am provided with feedback on my work that benefits my learning

The professor returns evaluations (e.g. tests, assignments, reports, etc.) within two weeks, or the time specified by the professor

CLASSROOM ATMOSPHERE

Comments
Being helpful in explaining theories discussed in class that I am unsure of
explaining clearly the lecture content. Provide examples relating to the contents.
providing amazing content and taking a strong interest in student success.
Professor Thadani provides detailed powerpoints, as well as handwritten notes and connects the learning to other courses which helps to understand material and learn it faster.
I wouldn't want another teacher teaching this, he helps make it really understandable.
I once had a personal issue that was affecting my ability to complete a case study on time. I emailed Avainash about it and he told me to finish it when I can, however I was able to finish it on time I greatly appreciated that Avinash was forgiving and willing to work with me ensuring I submit my best work.
Always being available to answer questions if needed. He is always able to break down any complex process in a way that students are able to understand.
Interactive class time and wealth of learning materials
Avinash has been my favorite professor in first year. He is very knowledgeable, is quick to answer any questions, gets marks back in a timely manner, and is very patient. He's even helped me with my other courses that he isn't the professor for when I needed extra help. I think I would have struggled a lot more in this difficult course without Avinash as the professor.

The professor could provide further support for student learning by...

More review content for future tests to help aid in studying
Case studies need to be further explained. It would be great!
nothing professor thadani is amazing
keep being him

What recommendation(s) would you make to improve this course?

Comments
N/A
nothing professor thadani is amazing
never make it online
I think it would improve the course if it was a bit more nursing focused. Certainly knowing pathophysiology is important but there are so many slides on each topic and some of it goes into so much detail I don't know that a nurse would actually need to use.
