Comments
Best professor ever, makes learning fun and you wanting to attend all classes because of his delivery method of the course.
Providing extra time for assginments and making practice quizzes similar to what we actually will be tested on
creating practice quizzed and thorough reviews for tests . Creating assignments that reinforce concepts we have learned in class and better our understanding. it is also very helpful that he teaches both A&P and Patho since they go hand in hand.
giving students everything they need to be successful
The cadavr videos help alot in seeing the anatomy of the body in real life rather than just a diagram
Providing extra help if needed, he is invested in every students learning and was an amazing professor. Goes above and beyond for his students
Creating consistent, educational, and accurate learning material.
Providing me with the relevant information required to succeed.
Providing clear goals, different format of learning materials for different types of learners. Before the start of class, all content is available, which helps students to learn ahead.
I really enjoy the way Avinash teaches. I think he provides great resources and wants all of his students to succeed! I really enjoyed taking his classes and I think he really helped me to understand the concepts that will help me in my nursing career. Thank you, Avinash!!
Caring about my education and working hard to provide the necessary support when needed to ensure everyone is successful. He is kind and friendly and he makes the learning atmosphere fun and engaging
He effectively prepares me for all of my tests by providing a lot of practice content to prepare me for tests and assignments.
providing many course resources and practice quizzes for each chapter to help assist my learning. This extra support has made me feel much more confident as i continue my study through this class.
I enjoyed this course – Sida Guo
Honestly, Mr. Thadani does an amazing job with organization, preparation, lectures, etc. I always find myself understanding things so well in his classes. He gives great examples, and I never have a problem in his classes, especially with a heavy course like Anatomy and Physiology 2.
Giving in depth examples and explanations on each topic and slides presented in class to give us the best understanding of topics. As well, he posts videos online to h elp explain those slides if class was missed to still help you keep on track with learning.
Providing us so many notes and extra work. Professor Thadani cares about his students so so much and will help you no matter what.
Being supportive, kind, and helpful

The professor could provide further support for student learning by...

Comments
Not to my knowledge, this professor provides all different and extra course materials for you to succeed.
nothing, he is already doing the most to support learning.
Not sure
Nothing to note
In my educational opinion I believe Avinash has gone above and beyond for my education
N/A
He is a great professor.
He is amazing
Adding some more example video from YouTube on the content could be very helpful as I am a visual learner.
nothing! Avinash is a great teacher
I enjoyed this course – Sida Guo
Nothing, he is great, such awesome energy. I was lucky enough to retake a course with him, and I had no issues. He is so engaging in his classes and lectures that I never get bored. He keeps things simple and straight to the point.
Continuing to answer questions in class, give examples and explanation to topics, and giving feedback on assignments to know what to do better.
Litterly nothing. He is an amazing professor.
nothing he is perfect

What recommendation(s) would you make to improve this course?

Comments
Nothing.
Not sure
Purse content is very heavy, but manageable if you have time management. Narrow content down specifically to nursing focuses
For the course itself, having some of the tests not graded so heavily. Around 65% of the grade are on 2 test only leaving 35% to make up for mistakes
N/A
N/A
None this course is great
I think that having some collaboration assignments could help students teach each other the content, further increasing our knowledge on the subjects being taught.
This course is very difficult and Avinash makes it very easy to understand what we are learning.
I enjoyed this course – Sida Guo
I do not have anything to recommend. I am glad I was able to take another course with him this semester.
this course is already great, i would suggest to just keep on doing what he is doing. Maybe on suggestion is keep a bit more on pace as sometimes things can overlap in classes.
