BEGINNING OF THE COURSE

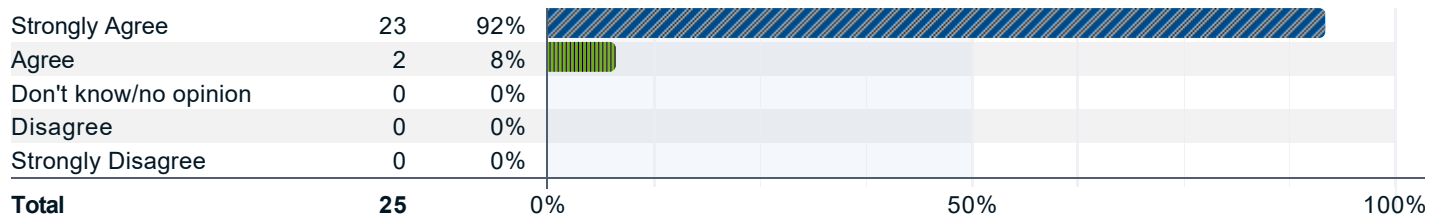

DURING THE COURSE

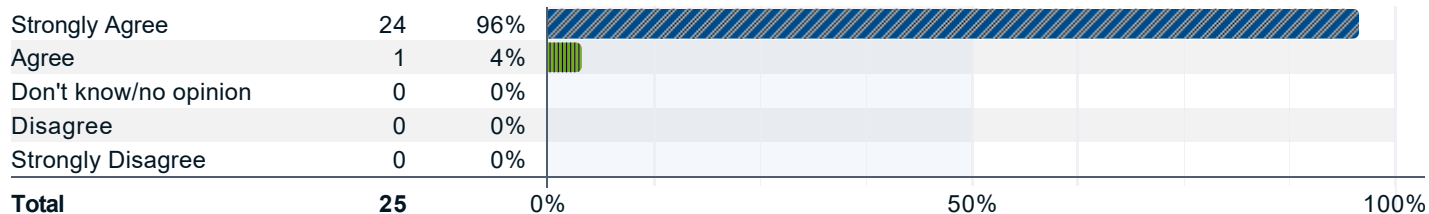

6. I am encouraged to engage and ask questions

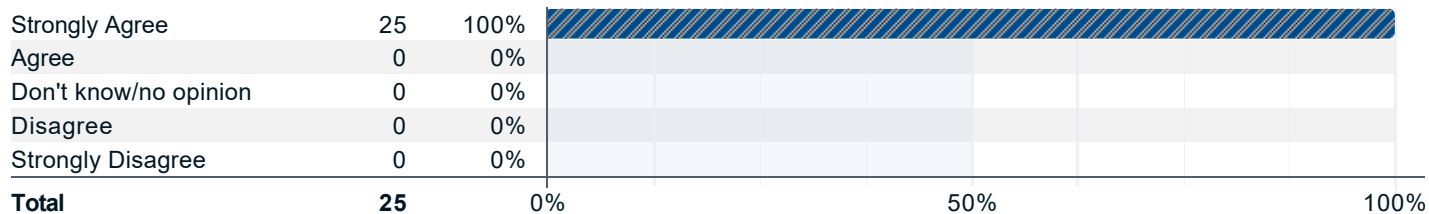

7. The course content is structured/presented in a logical order

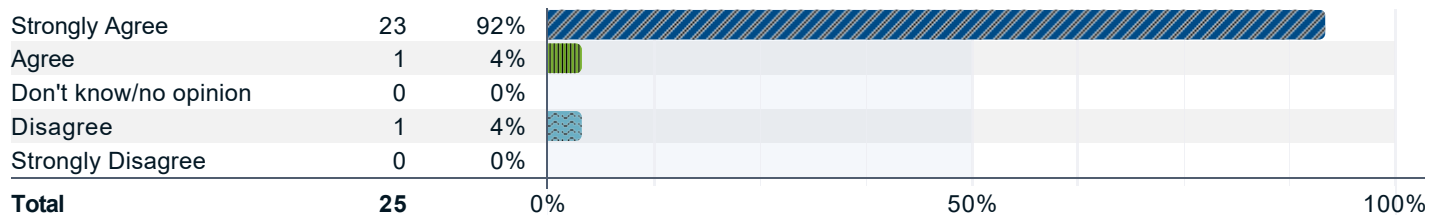

1. The professor provides their expectations for student success in the course

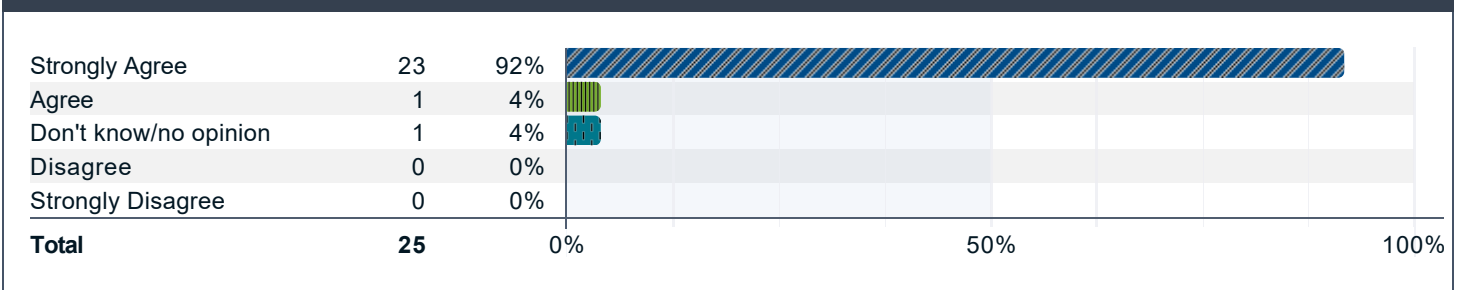

2. The professor is prepared for each class

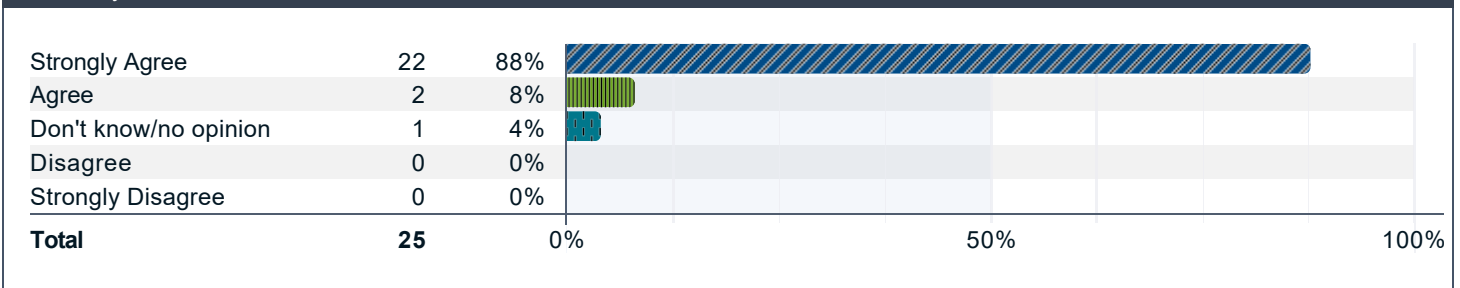

3. The professor explains content in a way I can understand

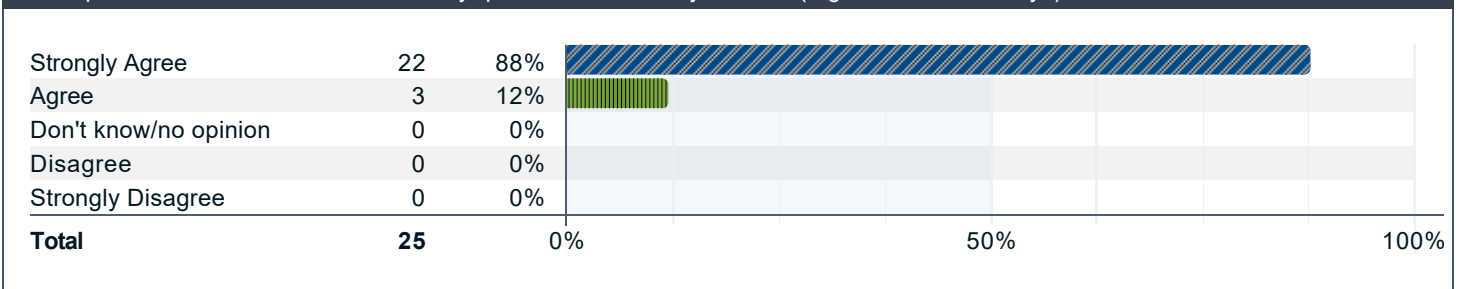

4. The materials used by the professor in the course (e.g. presentations, handouts, videos, websites, etc.) help me to understand the course content

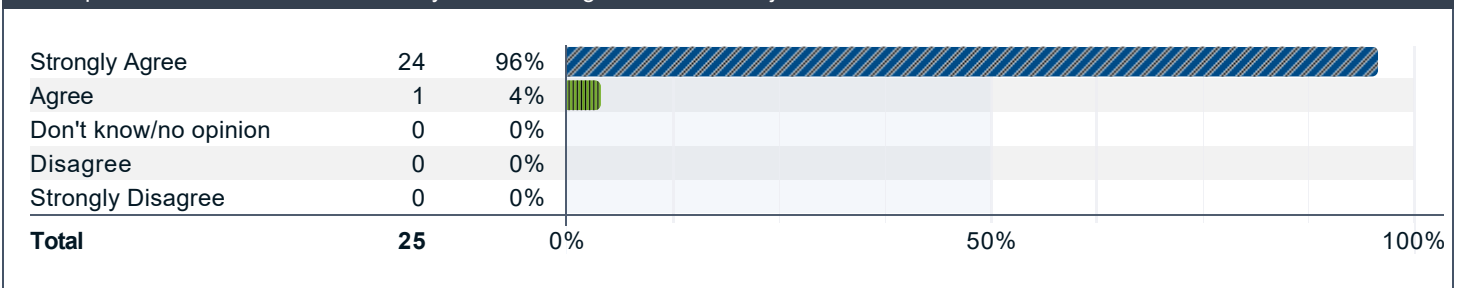

5. The professor informs me of, or directs me to, the appropriate resources/services (e.g. advising, library, peer services, etc.) as necessary

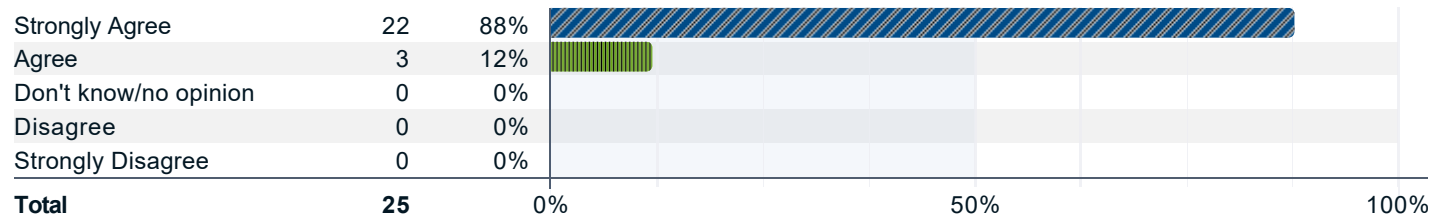

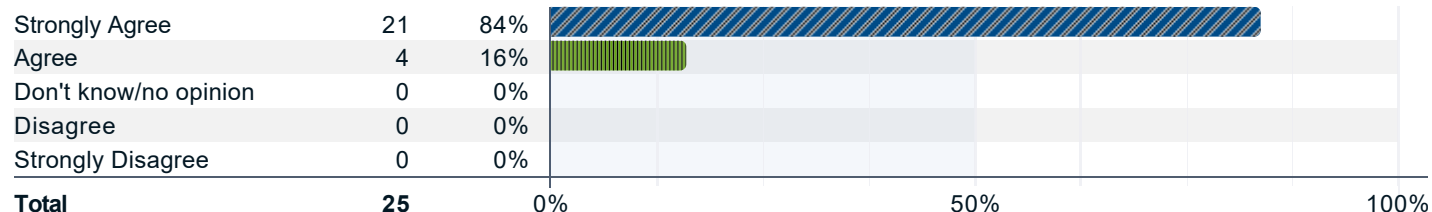

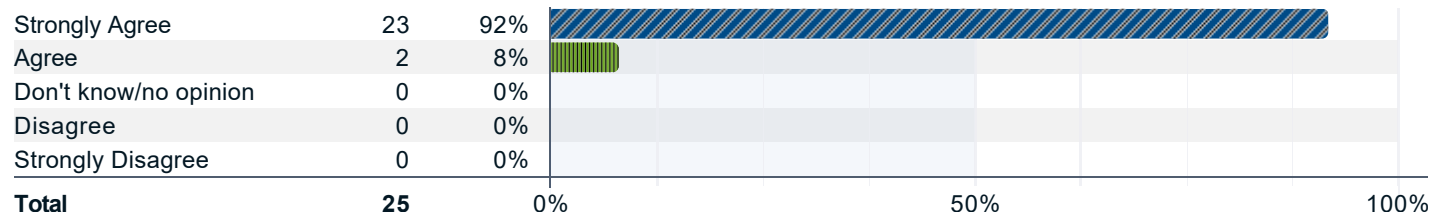

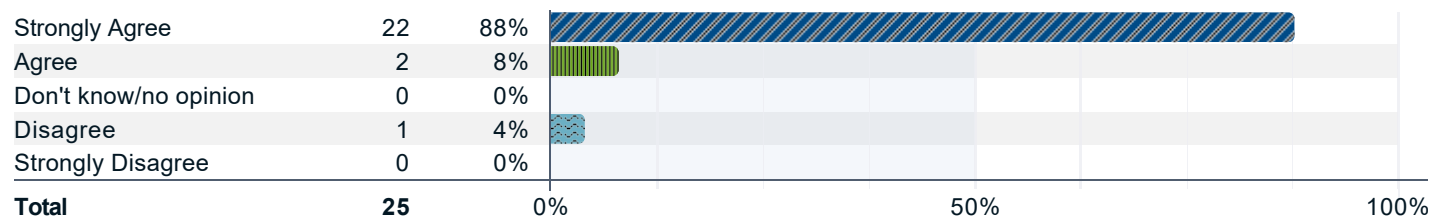

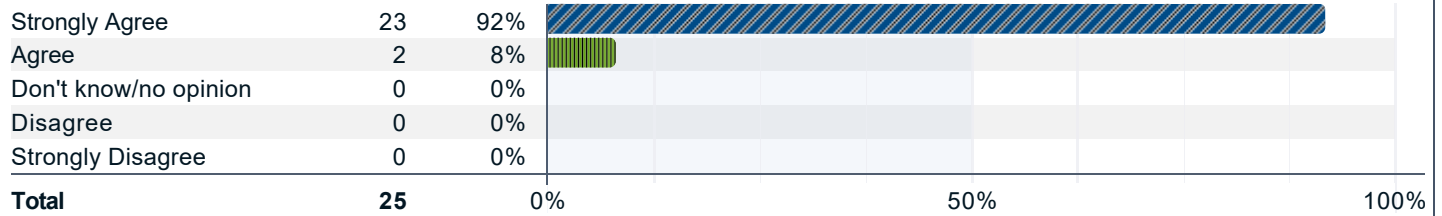

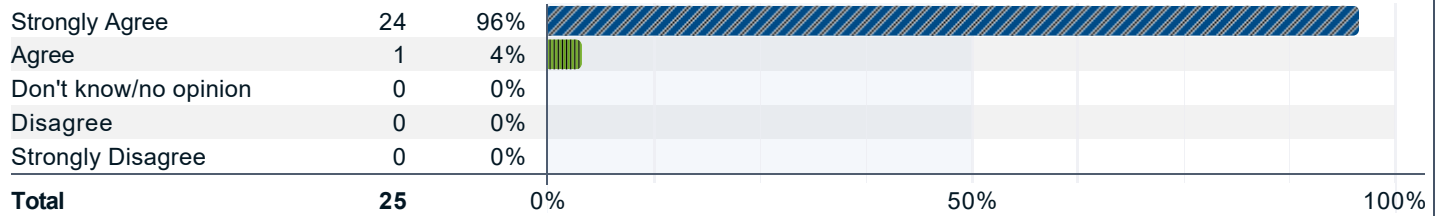

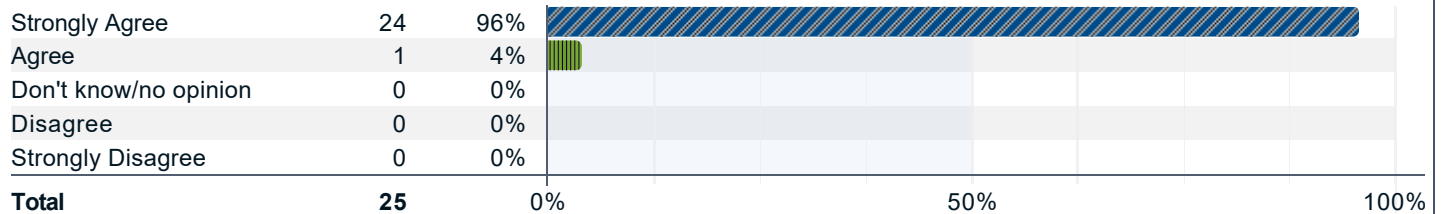

6. The professor is available to answer my questions in a timely manner (e.g. 1-2 business days)

7. The professor demonstrates that they are knowledgeable of the subject matter

EVALUATION**1. The evaluation methods (e.g. tests, assignments, reports, etc.) described in the course syllabus/outline are followed****2. The evaluation methods (e.g. tests, assignments, reports, etc.) help me to understand the course content****3. I am provided with feedback on my work that benefits my learning****The professor returns evaluations (e.g. tests, assignments, reports, etc.) within two weeks, or the time specified by the professor**

CLASSROOM ATMOSPHERE**1. The professor shows interest in the course content****2. The professor cultivates an environment of mutual respect****3. The professor manages class behaviour effectively**

The professor has supported my learning by...

Comments
creating practice quizzes on each unit to help with studying as well as making our case study assignments very practical to reinforce what we have learned in class. He teaches each component thoroughly .
providing detailed slideshows and explaining every concept extremely well helped me understand these very difficult concepts much easier. Avinash also provided very valuable feedback on assignments and tests to help students improve their learning for exams and overall future knowledge.
Giving students everything they need to be successful
He is invested in every students learning and provides support specific to you
Proving me with the required information to succeed.
Best professor ever!
Providing extra time for assginments and making practice quizzes similar to what we actually will be tested on
being kind, helpful, and knowing his stuff
Explaining concepts in a way that are understandable. He is incredibly knowledgeable but also down to earth in a way that engages students and provides an atmosphere of mutual respect.
Case studies
Professor Thadani is one of the most kind and caring professors I have ever met. He genuinely cares about his students and will help you if you don't feel confident.
Pathophysiology is a pretty complex course that builds off of Anatomy and Physiology. I do have a hard time keeping up with heavy load courses and Mr. Thadani made things much easier with his teaching style, he is great at explaining complex material in a simple manner and ensuring everyone is on the same page. He only wants success for his students, and I believe this is great to see in professors, and I hope more professors are like Mr. Thadani.
Making the classroom enviornment fun and engaging
I enjoyed this course – Sida Guo
Creating consistent, educational, and accurate information and slides.
He works hard to ensure everyone is successful and provides help when needed
Providing a lot of practice problems and case studies to support my learning.

The professor could provide further support for student learning by...

Comments
nothing. he is already doing so much to support our learning
Nothing to note
N/A
Professor provided additional support for students.
nothing hes a great professor
N/A. I look forward to his classes!
Provide the answers to case studies after class
Extra group studies, personal notes, extra information, study guides, and extra quizzes
I had no issues and loved every course I took with Mr. Thadani. He has such a great teaching style.
Having a slide for the most common illnesses we would see as nurses
I enjoyed this course – Sida Guo
Avinash has gone above and beyond for my education.
None
Creating more collaboration work so that students can work together to solve problems.

What recommendation(s) would you make to improve this course?

Comments
Content heavy, narrow it down. Less focus on anticipated diagnosis as the doctor will not care about our opinion
N/A
More Professor like Avinash, with the same learning principles.
I thought the course overall was good; however, when it came to the midterm, the midterm seemed a lot more in-depth than the practice midterm given to us, as well as the course content was found to be more simplistic compared to the midterm, I found the course to be the most difficult to learn and study for compared to the other courses in the semester.
None, its great with Avinash
nothing
N/A
not sure
This course was the hardest this semester. I can't think of what to improve. It's fine just the way it is but it's just really hard.
I do not have any recommendations.
less content, perhaps making a patho and AP 3 for sem 3
I enjoyed this course – Sida Guo
Changing the weight of some of the tests, 2 tests in this course can literally make or break your grade leaving no room for error.
None
I think that it was great, just maybe add mor collab work as stated before.
